Environmental Enforcement in China – Julia Coym

Julia is senior analyst in Control Risks’ Global Risk Analysis practice, based in Shanghai and consulting on regulatory, political, and security issues in China and North-East Asia. Julia has worked on numerous projects advising clients on how to respond to intensifying regulatory enforcement on environmental, anti-competition and anti-corruption issues. In addition to working on bespoke consulting projects and stakeholder mappings, Julia is a regular contributor to Control Risks’ CORE services. Her recent projects include:

Bespoke monitoring of political and regulatory risks resulting from increased investigations into foreign automotive companies in China

Mapping of local government views for a client in an environmentally sensitive industry, looking at environmental and overcapacity policy trends to assess the viability of a proposed project and inform the client’s investment decision

Stakeholder mapping of key government institutions participating in intensified anti-corruption and anti-competition enforcement against a healthcare multinational in China

Development of a bespoke risk assessment tool with a multilateral financial institution to incorporate environmental and social risks to their in emerging market investment decisions

Prior to joining Control Risks, Julia worked as a Principal Political Risk Analyst for Maplecroft, a UK-based global risk and investment advisory firm, where she conducted and managed risk assessments on China and other Asian countries, examining sectors including transport, healthcare, financial, extractive, and retail. She was also previously a contributor of political and economic analysis for the Economist Intelligence Unit.

Julia is completing a PhD on market access for foreign companies in China, with focusing on the automotive and energy sectors. She has a master’s degree from the London School of Economics and Political Science and a bachelor’s degree from Georgetown University’s School of Foreign Service. Julia speaks Mandarin, is a native German speaker and is fluent in French.

Highlights from the last meeting

April, 3rd 2018

Sophia Slingerland RC Nyon-La Cote CH

total headcount 18, 13 members, 1 visiting Rotarian, 4 guests
Happy Money: 1200rmb

Not big attendance tonight but atmosphere was cozy and we enjoyed our dinner and special guest's speech with fun and emotional involvement. We started by the Four Way Test led by Tiziana, followed by David introducing visiting Rotarians and guests. Upcoming events were introduced by President Motosan and Tiziana did not even have to introduce our party because almost every member and even visiting Rotarian and guests already RVSP for it.

Classification time was up to Michel De Vriendt, the citizen of the world, following TinTin steps. He told us about his family starting by his grand grand-father, moving to his parents and the great culture of growing into diversity and Rotary spirit, helping less fortunate people. An example over all his the house for refugees realized by his dad to help them integrate into community by learning the language and local culture and having their kids trained by local people. He told us about his job starting from a his first into automotive arriving to his current one in sharing properties, converting spaces and giving value to old facilities. But what we have to underline is the way he talked about his family and his sparkling eyes mentioning his wife. Rotary has a predominant part in Michel's life. He is very engaged in many important projects, the most know by all of us is KBD, started several years ago in Tibet, now moving to Qinghai.

Linnet then introduced our night speaker, Alan Leung. Professional in personal training, exercising, nutrition, life coaching, corporate and group projects. Frankly speaking having him giving a speech while we were having dinner was probably a bit odd and some of us felt "guilty" but it was very instructive. He actually made us thinking about our lifestyle and about how we eat. If we want to age well we have to start considering several things cause the first wealth is health. Exercise is what will keep us younger and smarter. He explained a few misconceptions and taught us some basic movements that can help us improve our posture, giving more strength, reducing sugar into our blood and reduce osteoporosis. It's never too late to start. The importance is to start.

At the end President Motosan offered our tradition toast to our health.
