Our November 2nd meeting was a celebration of RI Interact week. Our Rotary and Rotaract family filled the room to meet the Interactors from our sponsored clubs and soon to be chartered DCSPD, along with Interactors and Youth Service representatives from the Gubei and Taiwan schools. The Four Way test was read by Brent and Interactor IPP Addy of SSES. The newest member of the RCS YSC Rotarian David Richardson introduced visiting Rotarians and guests.

Dinner started with an autumn favorite - creamy pumpkin soup, then to succulent chicken, topped off by a rich chocolate brownie and ice cream. Special thanks to the Kunlun staff for treating our Interactors so such a delicious meal and service. After dinner, our speaker Anthony Reich, Director of Global Citizenship (GC) at Dulwich College, Pudong, introduced us to the GC concept. He

Highlights from the last meeting

explained that in our increasingly interconnected world, it's easy to think that being a Global Citizen means traveling a lot, being multilingual, or globally recognized. Twenty-first century teaching is addressing this misconception by teaching students and parents about global awareness, mindfulness, and responsibility under GC education. As Rotarians, we see the world-wide impact that RI has through the Rotary Foundation, but few of us knew that RI is an active supporter of GC education through its Service-Learning trainings. Anthony shared several moving examples of how GC Education creates experiences that foster empathy and build leadership in Youth. He has led and supported projects that have seen students tackling oceanic plastic wastes, addressing menstrual health and stigmas, and saving bees. Through his project The Peace Center, Anthony, his family, friends, and students provide food, education and economic support to an orphanage in a small Ugandan village where he spent a year after University. The inspiration of his example and stories could be felt in the table discussions he injected into his talk. He advised Rotarians and Parents to empower Youth by asking what tools they needed and to never assume that they are incapable of impactful action. We felt inspired to make additional contributions to making the world a better place.

His speech was followed by presentation of an RI Citation award to the SSES Interact club for their action during the previous Rotary year. Their YSC Mentor, Rotarian Tiziana, encouraged all clubs to get more engaged in today's social needs. We also read about Good Service through research articles written by the SAS Interact club as their signature project.

Rotarians Terri and Tilman collected a generous Saddle for the Rotary Foundation while contributors expressed their gratitude towards our speaker and Interactors for their action, and YS Chair Naomy thanked the Committee for their dedication. Guests hurried to get their picks of te beautiful Ugandan handcrafts to support the Peace Centre. President Rita ended the evening with a toast to Youth in Action.

The Peace Centre

The Peace Centre is a home for orphaned children, situated in Bukinda, Southwest Uganda. We only support children who are genuinely needy, and go through a rigorous background checking process to ensure this. The vast majority of our children are double orphans who have no immediate family. Typically their parents have died of AIDS, and most of our children are two or more years behind in school because they have not been able to afford the fees, even though these are very cheap.

The Peace Centre officially opened on Monday, 2nd February 2015, just over a year after fundraising and work started to get the project off the ground, and some 12 years after the project was originally dreamed up by Peace, Golden and Anthony in the village of Bukinda, Southwest Uganda.

The orphanage was built over a period of about twelve months, including a few weeks' work on construction with students from Dulwich College Shanghai, who have contributed a tremendous amount to the cause.

Our goal is to provide love, care and a home for each of these children, to ensure that they are educated, healthy young people who can be successful in life.

- We will provide a safe and loving environment, that all children feel is a place they can call home.
- As a staff, we will treat all children in our care as our own.
- We will provide the basic needs of water, food, clothing and health care for all our children.
- We will provide a primary and secondary education in local schools, monitoring their progress and academic development.
- We will teach our children the value of a balanced lifestyle, including time for play and relaxation.
- We will seek to develop our children's life skills and wider interests, providing them with tools to equip themselves for an independent future.

Contributions

Contribute to the speaker program and strengthen our network! Help us bring in exciting topics and high-quality speakers.

In the year of Elevated Engagement, The Speaker Program Committee will focus on high-impact speakers that can help us attract more guests and increase our membership diversity. To accomplish this goal, we have devised three categories: Charities, Businesses and Inspirational story-telling.

Charity speakers should share key learnings from their experience in community assistance and opportunities for collaboration. Business speakers should provide strategic outlooks on business in China such as trends and growth in D&I, social responsibility, finance, technology, and other categories relevant to our membership. Inspirational story-tellers should share exciting personal or advocative narratives that broaden our scope of culture, places and society.

Contact Jeff and Christian with speaker proposals.
