

Project Summary

PROJECT: "The Library Project"

The Library Project has established over 1,800 elementary school libraries. It has put more than 1,200,000 Chinese language children's books into the hands of eager young readers. Over 600,000 children now have access to improved educational infrastructure. Together we are changing the world, one book at a time.

Targets

We, at RCS, built one library each year in our local area. We developed a relationship with the schools where we made our donations and continue to support the schools in creative and helpful ways.

Major achievements

RCS has funded and installed four libraries in the Shanghai area.
